Re: Assistance and Technical Support

Dear Frank,

I just wanted thank you for arranging for our Utilities Department to use your leak detection equipment. In these financially difficult times small municipalities are very grateful for the regulatory guidance, technical assistance, and other resources that your organization provides. In many cases your organization's help can be the difference between regulatory compliance or non-compliance and providing a safe and reliable service to our customers or service interruptions.

Your organization also provides valuable training opportunities allowing our operators to update their operational knowledge and obtain PDHs for the renewal of their certifications. Thanks for everything that you do for us.

Yours truly,

Wayne Debrosky
